PROFILE

UX Designer with hands-on experience designing and shipping enterprise-grade SaaS products in the logistics and transportation domain, turning complex operational data into clear, actionable interfaces. Skilled in end-to-end UX, from user research and flows to high-fidelity UI, dashboards, and performance-tracking tools that help users act on data with confidence. Currently working on a Transportation Management System (TMS) used by enterprises and transporters, focused on adoption, efficiency, and measurable performance outcomes.

EXPERIENCE

UX Designer

Apr 2025 – Present

Taabi Mobility | CEAT Limited – Mumbai

- Currently working on an enterprise Transportation Management System (TMS) used by both enterprise teams and transporters in their day-to-day operations.
- Worked on self-onboarding flows for transporters, helping them join the platform smoothly when invited by enterprises for auctions or truck bookings.
- Designed transporter-facing experiences, including Video Telematics features and a Transporter Management System that turn real-time fleet and performance data into clear visibility for users.
- Owned UX across the freight procurement journey, from RFQs and contract-based auctions to finalizing freight rates between enterprises and transporters.
- Designed workflows for creating and managing contracts, making it easier for enterprises to convert negotiated rates into active agreements.

UX Designer Intern

Aug 2024 – Apr 2025

Taabi Mobility | CEAT Limited – Mumbai

- Worked on contract-based truck booking, enabling rate selection, trip creation, and trip execution from a single flow.
- Designed ad-hoc truck booking and spot auctions to support urgent or one-off trips and faster rate discovery.
- Helped shape analytics dashboards that turn operational data into performance scorecards and trend insights across bookings, trips, auctions, site performance, capacity utilization, and transporter scores.
- Worked closely with product managers, engineers, and business teams to break down complex logistics processes into clear, usable experiences.

Product Design Intern

Dec 2023 – Mar 2024

QuikView – Remote

- Designed the first MVP of the product from scratch.
- Gathered and translated business requirements into user flows, wireframes, and UI designs.
- Collaborated directly with the founder and developers to deliver a functional product within tight timelines.
- Focused on building clear, simple interfaces for early-stage users.

UI Design Intern

Oct 2023 – Nov 2023

Teamtweaks Technologies – Chennai, Tamil Nadu

- Assisted senior UI designers on web and mobile design projects.
- Designed social media and marketing creatives for in-house products.
- Gained exposure to working within real client constraints and feedback cycles.

Graphic Design Intern

Aug 2022 – Jan 2023

Srushty Global Solution – Chennai, Tamil Nadu

- Worked with a Senior Digital Marketer on social media campaigns.
- Contributed to an 18% growth in social media engagement within 90 days through improved visual communication.
